Assurance & Verification statement for PZ Cussons

Verco Advisory Services Limited (Verco) was engaged by PZ Cussons to provide limited assurance and verification of the Scopes 1 and 2 data reported in PZ Cussons' GHG Footprint.

Verco provided limited assurance for the scopes 1 and 2 for PZ Cussons' operational assets.

The verification was sample based. The verification has been done in line with the following standards for the respective environmental data types and assurance standards:

Type	Standard
Energy	ISO 50002
Greenhouse Gases	ISO 14064-3
Assurance standard	ISO 19011

The verification checks were delivered by Verco, a specialist sustainability consultancy, on the environmental disclosures related to PZ Cussons' operations. This provides investors and other stakeholders with confidence in the reported data.

Mark Challis

Operations Director
